**Notes:**

1. Unless otherwise stated, all GPA stated refers to cumulative GPA (cGPA).
2. McGill has a different system in that there is a B.Sc Rehabilitation Science in PT program which directly feeds in to the MPT program while applicants with undergraduate degrees apply for entry into a "Qualifying Year" prior to the actual MPT program. Once you're in the QY, you are guaranteed a spot in MPT as long as students maintain cGPA of 3.0
3. CAP- Computer Administered Profile, to assess personal characteristics/attributes, life exp, critical thinking, etc.
4. All programs refer to clinical PT programs that allow you to practice after graduation, rather than research-based Masters programs.
